To Whom It May Concern:

Re: Kenn Lucas

It is my pleasure to write this letter of recommendation for Kenn Lucas.

During the three month period that he worked on the design of our website, he maintained a friendly yet professional attitude with us to the completion of the project.

Kenn was also readily available to answer questions and tutor us in the administrative side of the website.

Our Operations Manager, Sharon Sanghera, herself well versed in IT, found Kenn to be profoundly knowledgeable of his specific technology and technology in general.

Both she and I firmly believe that Kenn is a great asset to any technology organization and well worth keeping and nurturing.

Please invite any interested party to contact me for more information.

Sincerely,

John Ebner,  
Managing Partner
